member of

GLASS MOP

IDEAL FOR

- GLASS
- MIRRORS
- STAINLESS STEEL

Ultra-microfiber pad for window cleaning. Combined with an alcohol-based chemical product, it cleans brightly with only one wipe, eliminates dust, fingerprints, grease and other light dirt. Thanks to the wide surface and compared to the traditional pads, Glass Mop covers a bigger area in shorter time with excellent results.

**SNOW**

IDEAL FOR

- WHITE BOARDS
- MARBLE
- CANTEEN'S TABLE

White short pile microfiber with good sliding effect, suitable for wet/dump (washing) and dry (dusting) cleaning. The excellent fluidity ensures effective cleaning results in removing dirt on all types of surface.

**SPOT**

IDEAL FOR

- BAR COUNTER
- INDUSTRIAL KITCHENS
- WHITE TILES

The combination of white short pile microfiber (suitable for any type of surface) and the black abrasive spots (to rub the stubborn stains) ensures an excellent result in removing even the most difficult soil.

**ZEBRY**

IDEAL FOR

- PVC SURFACES
- PLEXIGLASS
- LAMINATE SURFACES

Zebry has a very special "V" structure that purposely interrupts the uniformity of the contact between the microfibres and the surface itself.

The spaces that are created allow the strand to penetrate deeper into the pores of the surfaces or into the grouts of tiles and to carry out a more careful and complete cleaning.

The rubber is the key

The rubber blade is the most important component of a squeegee, it comes into direct contact with the dirt, cleans and dries the glass.

The unexpensive blades available on the market waste your time because they soon leave unsightly marks all over the glass, they get deformed mainly because of the friction with the surfaces, and because dirt and washing solutions are chemically aggressive.

Cheap blades end up to cost more because they last much less and make your work much less effective.

This is why Pulex TQR (Total Quality Rubber) came about to guarantee a long lasting perfect linearity of the blade's cleaning edge and a perfect adherence to the glass, thus making the window cleaning effective and efficient.

Our blades are made out of real vulcanized natural rubber, a mix with no impurity and a perfect molecular dispersion which guarantees elasticity, snap resilience, hardness, resistance to chemical and atmospheric agents.

THE CUTTING IS MADE BY PRECISION MACHINES AND

THE PERFECTION OF BLADE'S CLEANING

EDGES IS **CHECKED ON 100% OF OUR PRODUCTION.**

.01

HARD RUBBER

- Vulcanized natural rubber
- Better cleaning, better resistance, longer life

MULTIFUNCTIONAL

The innovative Pulex **UNIHANDLE** (patent-pending) is an ergonomic handle, completely versatile and made with high quality materials. Matched with three different accessories, this handle is the answer to each window cleaning need.

1. COMBI VERSION

Equipped with **IPC microfiber pad**, this model allows even the most grimy windows to be washed and remove stubborn dirt.

2. SQUEEGEE VERSION

Matched with **high quality natural Pulex rubber**, it wipes perfectly without leaving marks or halos.

3. SCRAPER VERSION

This version, combined with scraper, easily removes even the most stubborn or encrusted dirt.

A ONE-PASS TOOL TO WASH AND WIPE AT THE SAME TIME, OPTIMIZING THE NORMALLY REQUIRED TIMES.

VERSATILE

1. EXCLUSIVE PIVOTING SYSTEM

Fluid movement of rotation, free (up to +/- 180 °) or limited (up to +/- 150 °), which guarantees speed and efficiency.

2. ROTATION LOCKING

It is possible to stop the rotation movement in 5 different angular positions (0 °, +/- 45 °, +/- 90 °).

3. EXTRA-WIDE ADAPTABLE ANGLE

It allows the tool to be adjusted according to cleaning needs or your preferences (-20 °, -5 °, 10 °, 25 °, 40 °, 55 °, 70 °).

HIGH COMPATIBILITY

UNIVERSAL

The (patent pending) head is compatible with most channels and telescopic poles on the market.

EASY ON/OFF

of the telescopic poles with safety hole.

IDEAL FOR USE IN HEIGHT

... but not only.

MADE IN ITALY WITH HIGH QUALITY MATERIALS

Each component has been carefully selected to ensure the best performance.
